## Home Page Changes

- Firstly we want a new slider option. We attached the example slider option at the end. But it should have to be very well optimized.
- Second we have to shift the svztechinfo logo from top to at Home button place and the whole menu bar will shift at the left corner with social media, search bar icon.
- In the Mobile version the svztechinfo logo will show in the center under black line menu border line.

## Changes in after article things

- Want to remove both these things from articles.
- Want to change 3 related articles to six.

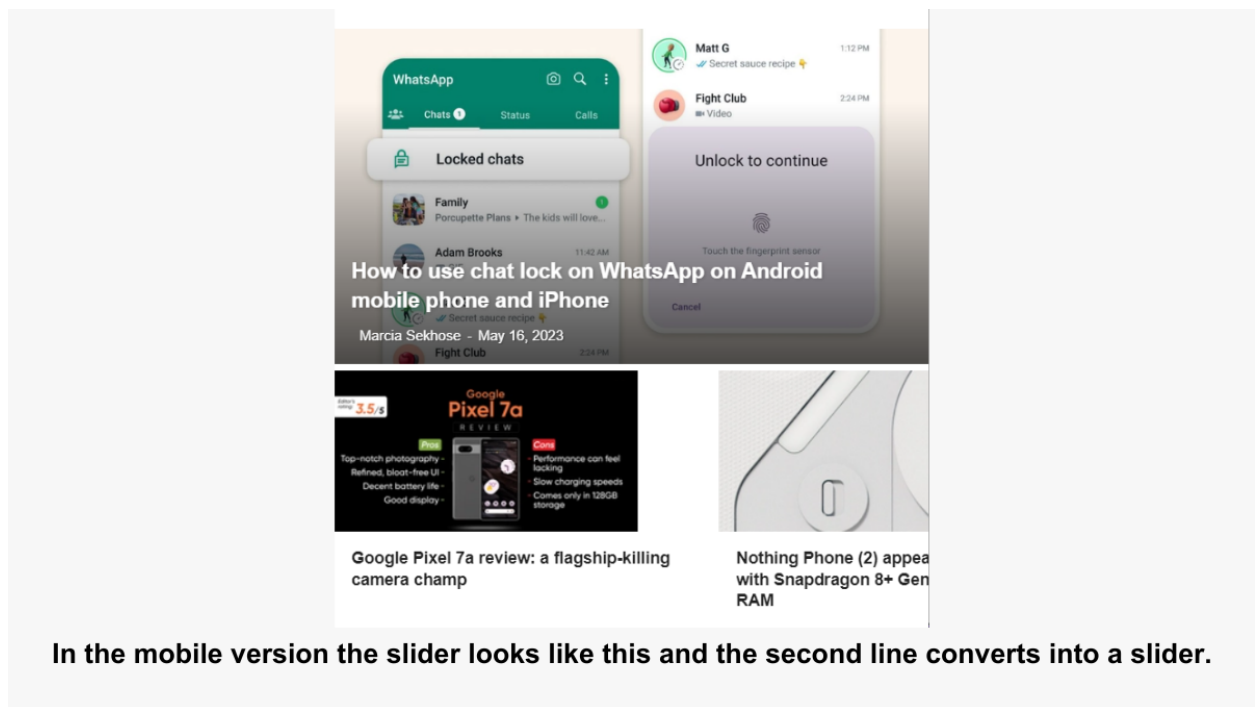

## Footer changes

- Want to add all policies page

## Example Slider

As you can see in this slider option we can choose three different category articles, but in Newslist Pro we are only able to choose one category article.

In the mobile version the slider looks like this and the second line converts into a slider.
